Comments on Used Car Auction Data (May 2021)

The number of auctions held in May 2021 increased one auction at Tokyo auction site compared to the same month in the previous fiscal year because of calendar factors. As a result, number of consigned vehicles was up 25.7% (YoY) and number of contract completions was up 50.9% (YoY).

Year on year comparison (calendar factor adjusted)

After adjusting for calendar-related factors, the results for USS Group auctions in May 2021 compared with the corresponding period of the previous year (May 2, 2020 to June 1, 2020) were as follows.

However, there was one more auction than in 2021 at each of the four sites, including Tokyo and Nagoya site because of the different timing of holidays during Japan's Golden Week holiday period.

	This month	Prv. year	YoY
Number of consigned vehicles	226K	170K	133.3%
Number of contract completions	145K	93K	155.2%
Contract completion rate	64.0%	55.0%	-
Average price of vehicles contracted	¥848K	¥637K	133.1%
